

Activated Charcoal Paste

with Electrolytes

Research has shown that activated charcoal is effective in counteracting the effects of certain oral toxins. This easily administered paste is for use in the treatment of accidental poisoning resulting from insecticides, herbicides, organic chemicals, intestinal bacterial contaminants or grain overload. It is not effective in the treatment of heavy metal poisoning such as lead, arsenic, mercury, etc. Indicated for use in cattle, calves, horses, foals, sheep, goats, dogs and cats.

Active Ingredient: Activated hardwood charcoal, 100 mg/mL

Excipients: Water, attapulgite clay (200 mg/mL), sodium chloride (35 mg/mL), potassium chloride (35 mg/mL) and polysorbate.
