

# Bitter Spray

This fast-acting topical spray discourages dogs from biting and chewing on hot spots, injuries and bandages. It can also be used to stop chewing of furniture, rugs and drapes. Dogs are very sensitive to the bitter taste and will leave sprayed areas alone. Because it is a taste deterrent, it may actually help promote healing of irritated tissue. It is safe and non-irritating.

**Ingredients:** Water, propylene glycol, rosemary oil extract, denatonium benzoate.

## BITTER SPRAY

Topical

Safely Deters Chewing, Biting & Licking

Bitter Spray is a fast-acting topical spray that discourages dogs from biting and chewing on hot spots, injuries and bandages. It can also be used to stop chewing of furniture, rugs and drapes. Dogs are very sensitive to the bitter taste and will leave sprayed areas alone. Because it is a taste deterrent, it may actually help promote healing of irritated tissue. It is safe and non-irritating.

Directions for Use: Shake well before using. Apply topically as needed. Spray on area or object to be treated. Safe for furniture, walls, rugs and clothing. May be applied around bandaged areas. Do not wash off. Repeat as often as needed.

Ingredients: Water, Propylene Glycol, Rosemary Oil Extract, Denatonium Benzoate.

Cautions/Warnings: Avoid spraying around eyes and mouth as well as open wounds. Wash hands after application. Do not use if product appears to be tampered with. Keep out of reach of children and pets to avoid unintended consumption.

For external use only.

Storage: Store at room temperature in a dry place. Avoid temperatures above 86°F.
