

# CMPK Bolus

A supplemental source of calcium, magnesium, phosphorus and potassium along with Vitamins D3 and E for use in dairy cattle, beef cattle, sheep and swine.

- Readily available source of vital minerals to help replenish blood calcium, phosphorus, magnesium and potassium levels when hypocalcaemia occurs.
- Can be used as a follow-up to intravenous calcium therapy.
- May be given as a daily mineral supplement.
- Durable and non-capping boluses with optimal dissolvability.
- Not a drug and no withdrawal times.

**Ingredients:** Dicalcium Phosphate, Dextrose, Magnesium Oxide, Sodium Chloride, Calcium Carbonate, Potassium Chloride, dl-Alpha-Tocopheryl Acetate, Corn Starch, Vitamin D3 Supplement and Magnesium Stearate.
