

Oral Calf Feeder

with Probe

This is an easy-to-use device for rehydrating scouring calves. The clear collapsible bag, with graduated markings from 500 mL to 2500 mL, has a large handle for carrying and hanging. Zippered opening allows for easy filling and cleaning. Features a 17" flexible probe with a rounded end that is designed for easy introduction into the esophagus, preventing tracheal introduction. Tube length is approximately 33". Convenient on/off flow clamp included.

The 17" flexible replacement probe comes with 33" clear tubing, barbed adapter for easy attachment, and on/off clamp.
