

# Chromic Catgut Suture Cassettes

These sutures are manufactured from natural collagen twisted multifilament with a monofilament aspect. They have a consistent diameter throughout the reel to provide smooth, snag-free dispensing. Manufactured for VetOne to FDA, GMP, ISO 9001 and EN ISO 13485 standards by the leading cassette suture manufacturer in the European market for consistent, reliable quality.

When you buy five suture cassettes, you get one aluminum cassette rack free. (Cassette rack is also sold separately.)
