

Equine Pipettes and Swabs

Equine Infusette™ Pipettes

These pipettes are specifically designed for use with many of the common uterine infusion products. Manufactured of PVC with a 0.130" (0.33 cm) I.D., 0.196" (0.497 cm) O.D.

ITEM#	DESCRIPTION	UNIT
603005	Infusette Pipettes (with adapters) 22" (55.88 cm), Sterile	Pack of 25*
604005	Infusette Pipettes (with adapters) 25" (63.50 cm), Sterile	Pack of 25*

Drilled Infusette™ Tubes

An infusion tube designed with a unique drilled end for easy coupling with a luer tip syringe, which eliminates the need for an adapter. The tubes are manufactured of PVC and have smooth, round polished ends with 0.110" (0.279 cm) I.D., 0.215" (0.546 cm) O.D.

ITEM#	DESCRIPTION	UNIT
602005	Infusette Pipette Drilled 21" (53.34 cm), Non-Sterile	Pack of 25

Standard Infusette™ Tubes

PVC tubes are designed for use with many of the common uterine solutions on the market. They have smooth, round polished ends with 0.110" (0.279 cm) I.D., 0.196" (0.497 cm) O.D..

ITEM#	DESCRIPTION	UNIT
601005	Infusette Tubes (with adapters) 21" (53.34 cm) Non-Sterile	Pack of 25*

Culture Swab

A unique tool for collecting uterine samples from brood mares for culture. The three-piece design includes:

- Outer clear PVC tube
- Blue PVC swab sheath inside outer tube
- White PVC swab holder with attached polystyrene cotton swab

Fully assembled the length is 29.5" (74.93 cm) and the O.D. is 0.300" (0.762 cm). This combination permits the retrieval of samples in a simple and sanitary manner. After retrieval, the sample can be stored and transported safely in its own protective capsule. Patented.

ITEM#	DESCRIPTION	UNIT
605005	Culture Swab 29.5" (74.93 cm) Sterile	Pack of 25* Each

* Individually wrapped
