

Flea Comb

This comb is perfect for use on cats and short-haired dogs. The closely spaced teeth lift out fleas, lice, nits and debris. Ideal to use after flea and lice treatments, this comb is economical, easy to use and convenient to take anywhere. Plastic double-sided combs measure 3-1/2" long x 2" wide with more widely spaced teeth on one side and more narrowly spaced teeth on the other side. Packaged in a dispensing jar of 36 colorful combs for countertop retail sale, complimentary dispensing to clients, or convenient everyday in-clinic use.
