

Soft-Sided Microscope Carrying Case

This padded nylon carrying case, which fits all VetOne microscope models, provides attractive protection as well as convenient storage. Constructed of rugged, easily washable dark blue nylon with two sturdy handles, three-sided front zippered access, and internal Velcro straps for securing the scope. Includes internal placeholders for up to three objectives as well as the portable illuminator. Dimensions: 18" H, 12" W, 8-1/2" D

Hard-Sided Microscope Carrying Cases

Protect your equipment investment with a rugged, durable Hard-Sided Carrying Case, which will provide safe storage as well as portability for the VetOne G380 and H604 microscopes (be sure to select the correct case for your model, as the configuration of the internal foam cutouts is different for each).

- Textured black outside panels hide scuffs and keep the case looking new
- Sleek aluminum and chrome accents increase durability at wear points
- Dual lockable straight-loop draw latches close the case securely (two keys come with each case)
- Dense internal foam blocks are cut out to provide snug, custom-fit spaces for the microscope body, Seidentopf head, and up to 9 objectives, as well as various accessories
- External dimensions: 17-1/2" wide, 15-3/4" long, 9-1/2" deep
