

Phase Kit for G380

Here is a simple and effective way to add phase contrast capabilities to your VetOne G380 microscope.

Kit Contents:

- Semi-plan Phase Objective 40X (spring-loaded)
- Phase annulus ring for SP Ph40X

Portable LED Illuminator Set

The portable LED illuminator set for the G380 series microscopes makes your microscope truly portable quickly and easily. This handy item uses 3 AA batteries (included) and provides bright, white light for up to 150 hours on one set of batteries. Installation is as simple as changing a light bulb—simply pull out the existing illuminator housing by removing the thumbscrew on the base (no tools required) and insert the illuminator, turn on and use as if you were in your lab. When you are back in the lab, simply snap the regular light housing back on, plug in and you are using your bench-top scope again.

Cleaning Kit

This handy kit has everything you need to take care of your microscope optics. Daily maintenance is necessary to assure that your microscope will remain in great working condition.

Kit Contents:

- Premium Grade Lens Cleaning Tissue
- Blow Brush designed to remove loose dust
- Finest quality Micro-Fiber Cloth for gentle removing of immersion oil from 100X lens
- A Multi-Coated Lens and Filter Cleaner formulated to take care of the optics without damaging the fragile lens coating
- Placemats for safekeeping Eyepieces while cleaning your microscope
