

PowerSpin™ LX Centrifuge

The PowerSpin LX features a variable speed range of 300–4000 RPM to ensure a clean, complete separation of cellular components yielding a superior serum or plasma specimen. This centrifuge is extremely quiet for a better working environment and has many features such as a timer and on/off switch that are normally found on units that cost much more.

- 8-place rotor for 0.5- to 15-mL tubes
- Quiet running (58 decibels at 3400 RPM)
- Stainless steel rotor chamber is easily accessible for cleaning and disinfection
- Meets CLIA recommendations for accurate speed control
- UL-approved components
- Color-coded instrument panel
- 0–30 minute timer with bell tone signal
- Detachable power cord with fuse holder
- Suction-cup rubber feet for stability and vibration reduction
- Maintenance-free brushless motor
- Lid window for strobe tachometer RPM check
- Latching lid with safety switch shuts unit off when the lid is opened
- Indicator is lit when the power is on
- Power Input: 115V/60Hz
- Weight: 15 lbs.
- Dimensions: 10.2" x 11.8" x 7.9"
- Warranty: One year

MWI#	DESCRIPTION	UNIT
601015	PowerSpin LX Centrifuge	Each
605015	Centrifuge Tube Adapters, 0.5 mL - 2.0 mL	Pack of 2
606015	Centrifuge Tube Adapters, 3.5 mL - 7.0 mL	Pack of 10
