

Psyllium Pellets

Apple- and molasses-flavored natural psyllium pellets have a high swell volume and are easy to administer—horses love the taste. Recommended to support healthy gut function, remove sand from the colon, and help reduce the possibility of sand colic in horses. Recommended administration is 1 to 1.5 scoops daily for one full week (7 days) out of every month (5.2-oz. scoop included).

- The 5-lb. bucket is a 16-day supply for one horse.
- The 10-lb. bucket is a 32-day supply for one horse.
- The 20-lb. bucket is a 64-day supply for one horse.
- The 40-lb. bucket is a 128-day supply for one horse.
