

Uterine Bolus

Uterine Bolus is a non-medicated urea bolus for use as an antiseptic and proteolytic aid in dairy cattle, beef cattle and sheep. Each bolus contains 13.4 grams of urea. Insert boluses directly into the animal's uterus or dissolve in 16 oz. of warm water to prepare an intrauterine flush. Dissolve 4 boluses in 16 oz. of warm water to make a topical application for flushing wounds. For intrauterine or topical use only.
